

VITAN AGRO INDUSTRIES LIMITED
(Formerly known as Vitan Departmental Stores & Industries Ltd.)

RISK MANAGEMENT POLICY

1. BACKGROUND:

The business activities of the Company carry various internal and external risks.

'Risk' in literal terms can be defined as the effect of uncertainty on the objectives. Risk is measured in terms of consequences and likelihood. Risks can be internal and external and are inherent in all administrative and business activities. Every member of any organisation continuously manages various types of risks. Formal and systematic approaches to managing risks have evolved and they are now regarded as good management practice also called as Risk Management.

'Risk Management' is the identification, assessment, and prioritization of risks followed by coordinated and economical application of resources to minimize, monitor, and control the probability and/or impact of uncertain events or to maximize the realisation of opportunities. Risk management also provides a system for the setting of priorities when there are competing demands on limited resources.

Effective risk management requires:

- A strategic focus,
- Forward thinking and active approaches to management
- Balance between the cost of managing risk and the anticipated benefits, and
- Contingency planning in the event that critical threats are realised.

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The common risks *inter alia* are: Regulations, competition, Business risk, Technology obsolescence, return on investments, business cycle, increase in price and costs, limited resources, retention of talent, etc.

2. LEGAL FRAMEWORK:

Risk Management is a key aspect of Corporate Governance Principles and Code of Conduct which aims to improve the governance practices across the business activities of any organisation. The new Companies Act, 2013 and Listing Agreement have also incorporated various provisions in relation to Risk Management policy, procedure and practices.

The provisions of Section 134(3)(n) of the Companies Act, 2013 necessitate that the Board's Report should contain a statement indicating development and implementation of a risk management policy for the Company including identification therein of elements of risk, if any, which in the opinion of the Board may threaten the existence of the Company.

Further, the provisions of Section 177(4)(vii) of the Companies Act, 2013 require that every Audit Committee shall act in accordance with the terms of reference specified in writing by the Board which shall *inter alia* include evaluation of risk management systems.

In line with the above requirements, it is therefore, required for the Company to frame and adopt a **"Risk Management Policy"** (this Policy) of the Company

3. PURPOSE AND SCOPE OF THE POLICY:

The main objective of this Policy is to ensure sustainable business growth with stability and to promote a pro-active approach in reporting, evaluating and resolving risks associated with the Company's business. In order to achieve the key objective, this Policy establishes a structured and disciplined approach to Risk Management, in order to guide decisions on risk related issues.

The specific objectives of this Policy are:

- a. To ensure that all the current and future material risk exposures of the Company are identified, assessed, quantified, appropriately mitigated, minimized and managed i.e. to ensure adequate systems for risk management.
- b. To establish a framework for the company's risk management process and to ensure its implementation.
- c. To enable compliance with appropriate regulations, wherever applicable, through the adoption of best practices.
- d. To assure business growth with financial stability.

4. APPLICABILITY:

This Policy applies to all areas of the Company's operations.

5. KEY DEFINITIONS:

a. Risk Assessment –

The systematic process of identifying and analysing risks. Risk Assessment consists of a detailed study of threats and vulnerability and resultant exposure to various risks.
